

WE FOCUS
ON **QUALITY**
BECAUSE WE CARE

ON WE FOCUS QUALITY BECAUSE WE CARE

The company

We are a family business founded in 1979. Today we are market leaders in the fields of animal nutrition and health in Cyprus.

We manufacture our products in our technologically advanced facilities and we distribute veterinary and livestock products from leading international organizations.

We constantly invest in innovation, knowledge, improvement and quality to offer the best products and services to the Cypriot farmer, veterinarian and consumer.

We measure
our success
on the basis
of the pleasure
and success of
our partners
because we
really care

- 1 We are a family business
- 2 We are a team of more than 70 people
- 3 We always operate with respect, appreciation and honesty
- 4 We focus on the continued success of our partners and animal welfare
- 5 We operate the most advanced and automated feed mill in Cyprus

► **PANCHRIS FEEDS (VETERINARY) LTD**

We have grown and specialized through our history and activity in the field of animal nutrition and health.

Through our company Panchris Feeds (Veterinary) Ltd we offer nutritional and veterinary products and services to hundreds of customers both for livestock and for pets. Our feed materials, additives, premixes, animal feed, equipment and veterinary medicines affect the meat and milk products consumed by almost every family in Cyprus.

Additionally our veterinary products support the welfare and health of almost every dog and cat of Cypriot families.

01

we specialize
in the field
**of animal
nutrition and
health**

we are market
leaders in the
**supplementary
feeds in Cyprus**

02

► PANCHRIS ANIMAL PREMIX LTD

We are market leaders in the supplementary feeds in Cyprus and we export our products to various countries abroad.

We manufacture livestock supplementary feeds and vitamin and mineral premixes in our modern premix factory.

We are licensed to manufacture supplementary feeds including coccidiostats and veterinary medicines.

We understand that each farm is unique taking seriously into account many factors such as genetics, livestock facilities, animal health, welfare, environment, nutrition, restrictions, farm management, staff, schedules, technology and know-how among many others and plan the appropriate feed ration and the appropriate complementary feed individually for each farmer.

▶ ERGOSTASIO ZOOTROFON LTD

We manufacture feeds in powder form (mash), pellets and crushed (crumble) for most livestock species, in our contemporary fully-automated factory. Our feeds are available in bulk or in small bags.

We are licensed for the manufacture of supplementary feeds including coccidiostats and veterinary medicines.

We strive for farmers to get the best results, quality, efficiency and therefore profitability. We want to be your partner of choice. To do that we focus separately on each livestock farmer, to fully understand the conditions and his needs, to offer personalized products and advice.

The supportive services we offer alongside our products are:

- 1 Design and implementation of rations, nutritional and veterinary advice
- 2 Education and training of livestock farmers to improve their knowledge and experience
- 3 Laboratory tests and advice for foods, milk, water, raw materials, etc
- 4 Improvement of animal productivity and health
- 5 Improvement of farm management and efficiency

we are
market
leaders in
companion
**animal
nutrition
& health**

04

► PROPET WHOLESALERS LTD

We are market leaders in companion animal nutrition & health

We distribute a wide range of products including pet foods, nutritional supplements, shampoos and cat litter. The products are distributed exclusively in pet shops and veterinary clinics throughout Cyprus.

Simultaneously we are proud that we are probably the largest private sponsor and donor to shelters and animal welfare organizations in Cyprus.

► QUALITY & PANKEMI LAB

One of our advantages is the focus on quality. Our quality is not only about our products. It involves all processes, people, knowledge, advice and every action.

We receive samples of all the raw materials that we receive, and we proceed to detailed inspections and analyses in our accredited chemical laboratory, PANKEMI LAB (ISO 17025). Our group has ISO9001, ISO14001, ISO17025, HACCP quality certificates.

The manufacture of products is fully automated with innovative animal feed manufacturing processes.

Our team is comprised of nutritionists, animal scientists, veterinarians, chemists, and ensures the quality and improvement of our feeds and services.

Additionally our chemical and microbiological laboratory PANKEMI LAB provides analysis and consulting services to several fields including feed, food, liquids, medicines, soils, environment and cosmetics.
